Nutrient IV therapy is a safe and effective way to receive natural vitamins, minerals, and amino acids direct to the bloodstream.

The 30 to 45 minutes session enhances your energy, improves your overall mood, and helps prevent future health conditions caused by stress, bad eating habits, and dehydration.

THE LIQUILIFT

Get the maximum impact.

This is your one-stop-shop for all your nutrient needs. It has the greatest impact on mood, and rehydrates the brain and other important organs instantly. Many people use this drip as a long-term strategy to stay healthy all year round.

PERFORMANCE HYDRATION

Achieve more. Recharge to 100%.

Perfect for anyone who wants to train hard, we recommend this drip before or after intense physical activity. You don't have to be an athlete, either.

If you simply want to improve workouts, this drip will give you stamina and help recover muscles at the same time.

FOUNTAIN OF YOUTH

This formula detoxifies the body and promotes noticeably healthier skin, hair and nails because it contains glutathione, vitamin B12 and vitamin C.

NATURAL DEFENSE

Attack sickness head-on, naturally.

If you're feeling under the weather or are already sick with the common cold or flu, this high dose of vitamin C and other nutrients will boost the immune system, so you can bounce back quickly and live life to the fullest.

RISE AND SHINE

Exhausted from little to no-sleep?

If you've had a long night out, this mix of essential vitamins and minerals replenishes electrolytes, rehydrates the body and boosts your energy levels in just a few minutes.

THE EXECUTIVE

Feel sharp and mentally alert.

Fight stress caused by heavy workloads and long business days. This drip also helps you recover from jet lag, while giving you a sense of sharper memory and focus, so you're more alert and in the present.

GLUTATHIONE

Slow down the aging process with this master antioxidant.

Encourage cell revitalization and regeneration, while you detoxify the liver and drastically improve how your skin looks and feels. Achieve a brighter skin complexion and a youthful appearance after a series of treatments.
